**TM129 Technologies in practice**.
- 2004–2005 **BTEC Multimedia Art & Design**, *West Notts College*, Mansfield.  
*Merit*

### Experience

- 2015–Present **Online Driver**, *J.Sainsburys*, Nottingham.  
I am responsible for doing a full van check before leaving the store and reporting any problems to a manager. Ensuring that the van is loaded with the correct totes and goods for my scheduled deliveries and supporting colleagues in loading their vans too. Scan in the totes on the handsets to correspond with the correct deliveries. Ensure I have the correct paperwork for the day. Being polite, helpful and informative to customers when making a delivery. I am responsible for driving safely and taking care whilst on the road. Returning any unwanted goods to the store and disposing of them correctly. Emptying the van at the end of the day and following policies and procedures whilst in the yard. Asking for identification when delivering age restricted products.
- 2005–2015 **Relief Manager**, *MSR Newsgroup*, Nottingham.  
During my time as a relief manager at MSR Newsgroup I would always strive to provide excellent customer service. I was responsible for ordering the correct amount of stock for the coming week and checking deliveries and putting them away. Opening the shops, I would make sure that all the newspaper deliveries were sorted and available, the tills had the correct amount of cash in them and that all fridges and freezers were on and working. When closing the shops, I would sort out the unsold newspapers for returning, cash up the tills and check that the float added up correctly, sign off the lottery and scratch card machine and lock the premises up securely. I would take the previous days taking to the bank and collect any change that the shop needed. I ensured that the stock was always well replenished and was well presented. I also made sure that the shop was clean, tidy and always safe for customers.

### Computer Skills

- Basic PYTHON, Adobe Illustrator, L<sup>A</sup>T<sub>E</sub>X, Affinity Designer, Affinity Photo
- Intermediate HTML, CSS, OpenOffice, Linux, Microsoft Windows, macOS, Adobe Photoshop
- Advanced Computer Hardware and Support

## Interests

- Building computers
- Game development
- Cooking
- Building Raspberry Pi powered electronics
- Running
- 3D Printing
